OBJECTIVE

I have hands-on experience in building and optimizing websites, with a focus on creating intuitive and engaging user experiences. My goal is to deliver high-quality solutions that enhance functionality and performance, bringing your vision to life with clean, efficient code and a user-centric approach.

EDUCATION

B.E Electronics and Telecommunication Engineering, JSPM's ICOER, Wagholi	2021 - 2025
HSC, Prodigy Public School, Wagholi	2019 - 2021
SSC, Holy Spirit Convent School, Lonikand	2009 - 2019

SKILLS

Technical Skills	React, Express, Nextjs Framework, JQuery, Tailwind, Bootstrap, Python, MySQL, Git Version Control, Linux commands
AWS Services	EC2, S3, IAM

EXPERIENCE

Web Development intern — Dec 2023 - Jan 2024
Cloud Technosoft Solutions — *Wagholi, Pune*

- Redesigned the website for Rajarambapu Institute of Technology in Pune and added extra content requested by the client. Live at - https://www.ritppune.com/summer-camp
- Built a website for Restaurant Live at - https://roofparadise.in/

PROJECTS

Home Services - https://home-services-app.vercel.app

I built a user-friendly platform for home services using Next.js. It features HyGraph for seamless content updates and Clerk for secure logins. Users can find local service providers, book services, and track everything in one place, with a responsive design that works well on all screens..

Technologies used -

- HyGraph : Utilized for flexible and scalable content management, enabling dynamic content updates.
- Clerk: Implemented for secure and efficient user authentication and authorization.

File Flow - https://file-flow-omega.vercel.app

FileFlow is a Next.js app designed for uploading, storing, and sharing files securely. It offers an easy way to share files via email. The app features a responsive design, ensuring a smooth experience on all devices..

Technologies used -

- Firebase Firestore: Utilized for scalable cloud storage and real-time database management, ensuring reliable and secure file storage.
- Clerk: Implemented for user authentication, providing secure sign-in experience.
- Send Grid and React Email : Utilized to enable file sharing through Email.
